Dear Mr. U. Thant.

I want to commend on your good work and urge you to keep trying for mutual disarmament of Turkey and Cuba. An attack on Cuba either by Cuban refugees or United States troops would lead to disaster.

Respectfully yours,

Dear Secretary General:

We appreciate your attempts to find a peaceful solution to today's problems. Hundreds of people listened to Brock Chisholm in the first of a series of lectures on Disarmament here this Friday sponsored by our School Board, and applauded his advocating support of United Nations.

If going to Cuba would help assure peace, we hope you will accept the invitation. We trust you will decide wisely. We support you with our prayers.

Now note 'the President's argument' on the same 'Evening Standard' today: 27/10/62

"If present UNO talks on Cuba break down, President Kennedy is expected to order bombing raids on Cuba to wipe out the missile bases there. Actual invasion by land forces also would be ordered if Castro's air force struck back at the American mainland." - In other words, the annihilation of Cuba and its occupation by the gangster government of Kennedy. Or, I put it this way: The woman, resisting rape by a criminal has to accept rape and murder thereafter; there was a recent case like that in England; the raped woman is an invalid for life: her murderer, a Roman Catholic, was hung, protesting to the end, not guilty, and absolved by a priest. What about it, Pope John? JK

SUNDAY CITIZEN

and REYNOLDS NEWS

Government of the People, by the People, for the People

It is time to speak frankly to the American Government and people. And every human being has the right to speak. On American decisions in the next few hours may depend whether most of us live or die.

The voice of humanity says to America: you have done wrong to turn down Khrushchev's offer last night.

The Russian leader said he would pull his nuclear weapons out of Cuba if American missiles were taken out of Turkey. And within a few hours he was told that nothing could be discussed until Russian bases in the island had been made inoperable.

This is not negotiation; it is dictation by one country on a life or death issue for all countries.

Right and proper?

The American Government and people should know that most of the world does not accept the "moral" argument for their rejection of Khrushchev's offer. That argument, stated simply, is that it is right and proper for America to ring the frontiers of Russia with nuclear bases and submarines, but it is wrong when a turn of history gives the Russians a chance to plant a base on America's doorstep.

Most people do not see bases in terms of morality; that "ours" are whiter than white, but "theirs" are the work of the Devil. Bases exist as part of the great power struggle that is at the heart of the cold war. They can only be removed by great power agreement—or war.

America . . . or any other country . . . rightly feels

SUNDAY CITIZEN WORLD REPORT: CUBA SUNDAY CITIZEN WORLD REPORT: CUBA SUNDAY CITIZEN WORLD REPORT: CUBA

fear and anger when a nuclear base is planted on her doorstep. She is entitled to use all peaceful means to remove the danger. Since any other means could lead to world nuclear war, the rest of the world has the right to expect America to bargain and make concessions.

Khrushchev may not have been sincere in his offer to pull nuclear weapons out of Cuba in a "trade" for American bases in Turkey. But he suggested a time limit—three to four weeks. He proposed inspection by United Nations nominees to see that the bargain was carried out by both sides. That hardly sounds as though he were bluffing.

Think again, Mr. Kennedy. For the sake of your own people, for the sake of the whole human race, think again.

And think again on the other rumour that is coming repeatedly from Washington—that you intend to invade Cuba, or to bomb the bases. To do it entirely on an American decision, without having taken this

issue to the United Nations, against the almost unanimous advice of your friends and allies.

Think of the deadly risk you will be taking that what you regard as a police action may escalate into nuclear war. Even if war is avoided, think of the precedent you will be creating if, without mandate from any court that the world respects, you attack this small country.

by THE EDITOR

If that is to be the new international law, has Russia then the right to attack Turkey . . . or Italy . . . or Britain—any of the countries where American warheads are poised, or nuclear submarines are serviced?

There is one other thing the American Government

and people should know. If they go it alone, if they persist in refusing even to discuss offers such as that made last night, they will lose their friends and allies.

Unforgivable crime

They should not be misled by Mr. Macmillan's "Me too, only more so" echo of President Kennedy. The British people, and probably most of the people of Western Europe, simply do not see this issue as one for which they would enter a war of nuclear extermination.

We repeat: think again, President Kennedy. The only unforgivable crime is to allow a crisis which at this moment could still be controlled to drift to the point where disaster is inevitable.

HAROLD WILSON last night

HAROLD WILSON, MP, Labour's shadow Foreign Minister, last night made these comments on the crisis in reply to Sunday Citizen questions:

- We understand American feelings about these bases. They disturb the existing nuclear balance. And the Americans feel strongly that they have been deceived.
- But the Labour Party still greatly regrets that the U.S. Government should have had recourse to unilateral action. They should have taken the problem to the UN.
- Everyone concerned—and there should be a clear lead on this from the British Government—should support the initiative taken by U Thant.
- There should be NO talk of further action such as invasion.
- There must be urgent talks on dismantling the Cuba bases—which inevitably will be linked with talks on dismantling U.S. bases in Turkey. The week's events underline the urgency of a multilateral disarmament agreement, beginning with an effective test ban.
- For years Labour has pressed for the establishment of areas of disengagement—in particular, nuclear-free zones in Central Europe, Africa and the Middle East. Why should these not be extended to Central and South America and to areas of comparable distance from Russia?

First news from Havana...

THE first civil plane out of Cuba since Kennedy imposed his blockade has just arrived here in Mexico City, 1,150 miles from the ringed island.

I met the passengers—British and Canadian diplomats and businessmen—at the airport.

They all told me that Cuba has been placed on a war footing, though as yet there is no sign of alarm in Havana.

Slogans have sprouted all over the capital announcing "A Pie de Guerra" which means "War Footing." But life in the cafes, hotels and brightly-lit streets continues calm and normal.

One Canadian businessman—who, like the others on the Cuban Airlines flight, declined to give me his name—said the only indication of alarm he

had found in Havana was that a headmaster told him parents were keeping their children at home as a precautionary measure.

I was told that both pro-Castro and anti-Castro Cubans appear elated that

From JOHN RETTIE

the showdown is at last approaching and they are not unhappy that Cuba has been the cause of the world being nearer a thermo-nuclear war than ever before.

There is a strong element of irresponsibility, though some truth, in the Cuban leaders' vision of themselves as David defying the Yankee Goliath. They also appear unaware

of the gravity of their own situation.

The first men out of Havana say it is most unlikely there will be an internal uprising since the Opposition has not sufficient following, strength or organisation.

But should Kennedy order a total sea blockade, said the passengers, Havana and other Cuban cities would grind to a halt within a fortnight since power stations run on oil.

Another urgent point: If the blockade delayed food supplies, even for a few days, there would be disastrous effects. In recent visits to Cuba, I saw people's hunger. It is intense.

The Britons from Havana say the Cubans think invasion is imminent.

But they are willing to face it in the belief that the Russians are totally committed to defend them.

CUBA'S BASES... according to the magazine U.S. News and World Report.

IT REALLY BEGAN THE DAY AFTER THE BAY OF PIGS...

IT is nearly 2½ YEARS since Mr. Khrushchev warned the U.S. that, if necessary, "Soviet artillery could support the Cuban people with rocket fire."

But the full pattern of menace and counter-menace was set 18 months ago—the day after the abortive "Bay of Pigs" invasion by Cuban exiles.

APRIL 18, 1961. Khrushchev sends Kennedy a Note that Russia is "ready to give all aid to stop armed intervention."

Kennedy replies that, if there is foreign intervention, the U.S. will protect this hemisphere against external aggression.

APRIL 22. Khrushchev answers that Russia sought no privileges in Cuba and—as was "well known" to Kennedy ("and

to your generals and admirals")—did not have any bases there, nor intend to establish any.

FEBRUARY, 1962. Moscow attacks an Organisation of American States decision to exclude Cuba from its activities.

SEPTEMBER 11. Another Moscow statement tells the U.S. to "keep its nose out of Russian-Cuban relations," warns that an attack on Cuba would mean war. U.S. Secretary of State Dean Rusk answers: "We are a great country and we will proceed as we find necessary."

SEPTEMBER 21. Soviet Foreign Minister Gromyko, denouncing U.S. "war hysteria," tells United Nations that Russia will not hesitate to go to war if Cuba is attacked.

SEPTEMBER 30. Dean Rusk rejects any deal under which Russia would withdraw from Cuba in return for a Berlin settlement or closing of certain U.S. foreign bases.

LAST TUESDAY (October 23). Kennedy signs a proclamation setting up an arms blockade following "unmistakable evidence" of missile sites in Cuba.

WEDNESDAY. The U.S. Embassy in London issues (by mistake) pictures said to prove existence of medium-range nuclear missiles on Cuban bases. (One rocket expert says the pictures show only anti-aircraft rockets, not nuclear missile bases).

THURSDAY. Khrushchev says he will take no rash decisions, cannot accept

U.S. "pirate activities" and adds that a summit meeting would be useful. U Thant, of United Nations, suggests a "truce" and talks. Khrushchev agrees to suspend arms shipments—if the blockade is lifted. Kennedy agrees to preliminary UN talks—but the blockade will go on.

FRIDAY. Tension rises again as Kennedy approves "further action" against Cuba—evidently meaning invasion, if the missile bases are not dismantled. But an appeal to both sides by U Thant wins a breather: Khrushchev orders his ships—temporarily—to stay out of the blockade area, Kennedy promises his warships will do everything possible to avoid a clash.

Mr. U. Thant, Secretary
United Nations,
New York, New York;

Subject:-

The United Nations Cuban Mistake.

Dear Sir:-

Let me call your attention to a matter that you have evidently over-looked, ie -

Your endeavors for an avoidance of possible war is of course commendable, BUT negotiations with Khrushchev never have, and in all probability never will, produce satisfactory results of a permanent & mutually agreeable nature.

In other words, IF a deal is made with Khrushchev whereby Khrushchev agrees to dis-mantle// the missile bases in Cuba, it simply will not be done, and in all probability, if some bases were dismantled, Khrushchev undoubtely WOULD BUILD OTHER MISSILE BASES IN CUBA LATER WHEN MATTERS HAVE QUIETED DOWN.

Therefore the ONLY SURE WAY TO CORRECT THE CUBAN SITUATION, IS FOR THE UNITED STATES TO BOMB AND BLOW UP ALL MISSILE BASES IN CUBA, VIA A CONCENTRATED AIR/STRIKE IN/ QUANTITY; then invade Cuba, expell or imprison Castro, and drive out all Russian & foriegn soldiers and technicians; and then install a people's Cuban government acceptable to the Cuban people.

Many people fear that an atomic war might result if the U. S. invaded Cuba, whereas Khrushchev does not want war, any more then does the U. S. or any other Nations; even tho Khrushchev likes to bluff, knowing that so many people are fearfull of an atomic war.

In short. the only way to deal with Khrushchev - and the communist in general, - is by determination on a positive/ policy, with ample force to back up one's policy ; as the communist only respect, - and are afraid of, - POWER & DETERMINATION GREATER THEN THEIR OWN.

And I know whereof I speak, having surreptitiously/dealt//with/communists for the past twenty years and more.

Cordially Yours

My dear Sir:

I am writing to commend you for the efforts you have been making to mediate in the crisis between president Kennedy and premier Khrushchev. I certainly agree with you that the path of negotiation and compromise is the only course by which the peace of the world can be secured.

I have written to Kennedy and have denounced him in the strongest terms possible. I regard him as nothing better than an international criminal. In a prayer I gave in Church this morning I said that as Christians we should oppose the made policy of president Kennedy toward Cuba.

Dear Secretary General U Thant,

Word has come that Castro has invited you to come to Cuba, and I beg of you not to go. Both Castro and Khrushchev are so underhanded that they will probably camouflage their missile bases, and then try to make you believe that they are preparing only for defense. You cannot believe what they say, for they falsify almost everything, and will stop at nothing to gain their point. They might even try to do away with you, and then declare that they had nothing to do with it. Remain at the U. N., and continue your fine work. We need you. Most sincerely,

From Canterbury, England, still Protestant,
despite the worst Catholic Action can do,
and ~~tomorrow~~, 30.10.62, is the eve of
All Saints Day!

Above, as typed today to President Kennedy, with
the same one page I typed today!
Shakespearean greetings from F.L. *JK*

Cantorbury, Monday, 29.10.62: (1) attended two grass meetings yesterday in London, and at one received information on the very dangerous movement in the Roman Church, named 'Catholic Action,' the Pope's Propaganda machine.

Today, pondering on this menace, I decided to give this warning. 'Catholic Action' is a sinister menace to Freedom and Democracy. It amounts to the establishment within every country of little groups of fifth columnists, pledged to promote the Papal interests. These fanatics - lay people - blindly obey orders from their clerical superiors. 'If commanded by the Vatican, members of Catholic Action will commit High Treason. Archbishop Stepinac of Yugoslavia is an example of this.' Catholic Action was reorganised in 1923 by Pope Pius XI, the Pope who enabled Mussolini and Hitler to obtain power, and encouraged and boost their exploits. In 1940 the Belgian and French members of Catholic Action saw to it that both Belgium and France collapsed and the members of Catholic Action helped the Axis powers to the victory Pope Pius XII to much desired. Devoted, fanatical, Roman Catholics put first the Pope's interests - thus they are bad citizens in many ways, France. This great land was betrayed to Hitler by Romanists at the top - leading politicians, generals and admirals - Flandin, Bonnot, Baudouin, Laval - Laval was a Papal knight - Weygand, the defeatist general, and the admiral Darlan.. Worst of all was the criminal Marshal Petain - on whom much more might be said. Under his administration the Maginot Line was left incomplete and in May 1940 the Nazis poured through the gap. Petain became Head of State of the ignoble Vichy Government and received honours from the Vatican.

The 'Catholic Herald' wrote on July 12, 1940: 'The good Marshal seems to personify some of the best traditions of his race. He heralds the dawn of a new radiant day - not only for Britain France, but for Europe and the whole world.' Yet, under the Vichy rule of Petain about 50,000 French patriots were slain or handed over to the Nazis for the gas-chambers.. That was the Vatican's idea of 'a radiant day' for France. After the Allied victory in 1945, the intrigues of Catholic Action were fully revealed. Laval, Petain, and other traitors were condemned for High Treason. These men died in disgrace.

The record of Archbishop Stepinac is so terrible that I leave it to the imagination. Why do I mention this today? To explain the immense courage of President de Gaulle in defying the worst Catholic Action could, or can, do, including the various attacks on his life. Also to explain the lengths to which President Kennedy is prepared to go, in the hands of Catholic Action. The Pope having raised to eminence Kennedy is constantly reminding that tyranny, defiance of international law, and of duty to Democracy is essential.

The teaching of Loyola, founder of the Jesuits, is still the teaching of the Papacy: 'It is permissible to do evil that good may come' - the very reverse of the teaching of all true religion, of all true ethics.

The curse in the papal system is its dreadful grip of the minds and wills of its priests: denied honourable legal marriage, they develop as homosexuals, and as men - I am not denouncing homosexuals - I am not one myself - as men ruthless in their secretive relations with women: no vow of chastity is taken by the secular priests of the Papacy, most of whom have housekeepers. What happens, who knows?

These considerations were weighing on my mind today in the Kent War Memorial Garden, near the Cathedral, and not long after leaving, in the Library here, I read on the first page of the Roman Catholic weekly journal, of 27.10.62, this: 'Intervention in Cuba: 'Whatever dim chance there may have been of winning a Castro run to friendship up till now, there is clearly no such chance any more. ... There is no chance of a friendly Cuba until Castro has been deposed. It is to be hoped that President Kennedy has made his dispositions in such a way that that disposition can be carried through with as little violence and loss of life as possible.'

Could any statement be more clear that it is the intention of the Papacy that Cuba be invaded, Castro and others murdered, and a 'Catholic regime instituted, as soon as possible, in Cuba. A copy of what I now type will go to President de Gaulle, and Premier Khrushchev, Mr Macmillan, among others. In the

to do keep and be governed by as their national

right to so do and you W Hunt.
 As U.N. Secretariat General are charged
 with seeing to it that this truth be
 typed and presented to every member
 of the U.N. Body its Secy including
 both Russia and ~~Cuba~~ Castro
 And this truth be made known to the
 Cuban people that you as well as
 the U.S.A. stand ready to defend their
 own National rights and complete
 restoration of their own government
 system and way of life and to bar
 all interference on the part of Russia
 or Castro who has betrayed them in
 to the Communist power now being
 used over and against the Cuban
 people then saved from trying to
 regain or restore their own true National
 rights and system for them selves. This is to
 be given every member by the

Selves and are preparing them Selves to
break the yolk of the Communist system
off them Selves in an effort to restore
their own National rights and system
or way of life for them own Selves
and this is the government you are
to preserve, help, and restore to the
~~for~~ Cuban people. Their selves then
own true form of government and to see
that the Communist who are in there to
take away that right from the true citizen
or Cuban people their Selves to establish
their own Communist system upon
them - contrary to any National rights of
other nation or people and thus the
Communist do they do not have not and
never did intend or did they ever restore any
Peoples own National right of Self Government
but set their own Selves Self over over nation
forcing them to be subject to their own Communist

and thus request be made by the entire
U.N. Body that the Communist ~~Party~~
be completely evacuated out of Cuba
leaving them to restore their own nation
and national rights back to its former
government of the Cuban People their
Isles under their own Government Procter
and System its free of the Communist
Pressure or operation in any form
or way in the Cuban Country its free.
Now you know your self it is the Communist
keeping them Isles in the Cuba not to depend
or help the Cuban People their Isles to reestablish
their own rights as a people or a Nation but
to see that they be kept under the direct super
vision and orders of the Communist Party its
free due to the fact they see and know
that the Cuban People their Isles
respect the Communist Party over them

way of life and not their own and
God has opened our eyes to see and
know your own faults and complete
uselessness as a U.N. Body to
preserve any ones rights or have
you for if you did the thing you
should have done you'd trusted
the Communist or any one else who
went in to a Mother Nation to destroy
defeat that Nation in order to set up their
own System over them So far you have
let the Communist do this to every nation
they dumped their Ideas. Saying they were there
to protect the Peoples right but never set up
or restored the Peoples rights or Nation either but
Set up their own Communist System over them
making them to bow down to them against their own
wishes National rights and you as the U.N. Body
are Shameless and fully guilty of letting them

do it to all places where so ever they have
gone thus far in stead of assisting them
completely out of the nation leaving the
nation to work out its own problem
and to restore them selves back to their
own order form or way of life and
you know it the whole world knows
it be cause God has opened their
eyes to see what a hogless bunch
you are and the helpless estate of
all nation or people in whose
hope are trust in you to do any
thing Russia or the Communist Party
would not for one minute let any other nation
or people or system go in to any other nation
and do that (yet she does nothing else but that and
so long as it is Russia or the Communist Party
she expects the U.N. Body help her do it to them
wholly dis regarding them as a people or honey

any national rights to establish or operate
under their own system or way of life to
which they are custom and either the
entire lot of you as U.N. members
are total blind deaf and dumb or
you'd see it even as we the ordinary
people of the world does. you have
no loyalty you have no faith or courage
or respect to other national rights or
you'd do the thing you say you
stand for you defend it do you be-
lieve in one system now or people
dominate the world including your
peoples or do you believe in the freedom
of a people's mind soul body or nation
or people or an individual has a right
to live his own personal right God al-
mighty gave him that right when he
first life in that body it was given to

that individual body life from God almighty
to have the say over his own personal life
individual rights but you know full
well no one under the Communist have
any right or say unless they become puppet
and say what the Communist say they are
killed imprisoned and oppressed and by
measure that is of the devil the perverted
one of God and the imposter of God
Putting Him over saying over Gods
own Creatures Creation The Communist
Party & its leaders did not create heaven
or earth water air or land or any
thing in it there fore they have no right or
authority or say over Gods Creation neither
does Satan the devil or such a one have
or own any thing fore they take it away from
some one else for God gives them no such
say or right are you going to sell out
your souls your lives and that of other

People or Nation are are you going to
up hold the freedom God gave you
as an individual or a nation or
a people. That's what you are doing when
you set there and let the Communist
Party move in to a Mothers Peoples
Nation & Set them selves and then set
up over them Contrary to the will of
the people them selves. You are not
guiltless and you know it and as you let it
fall on them so shall they move in one by
one in to all your Nations and do the
same thing to you who say there is no God
yet Set them selves up as God and lives
God gives them no right to be over and you
know it God almighty is speaking to
you thru me His messenger to
open your blind eyes and unstop your
deaf ears and stand for ones you

right which you declare you do but
to lie and sit idly by as nation
after nation is swallowed up by
the evil one. if He was not out
to rule the world and Gods people
then He thushchev and the Com
munist Party is a lie for they openly
declare them selves they are going
to do all they can to bring every nation
and people under the Communist
flag or to bow down ~~to~~ to it So this
is openly declared by them who even
denies the God that Created them &
set them selves up in Gods place to
dominate Gods own Creature and Creation
with which they did not create or do they
have any legal right or right to domi
nate over looks like Man whom God Created
for His own use are glory as going to

to let the devil be enthroned in their
hearts as tho he is God. even as does
Khrushchev does and be governed
by the devil in Khrushchev who
set him self up over Gods heritage
the evil deceptine one who is only the
father of his evil wickedness and
an impostor reversed of God and
is using Khrushchev to have some
body to rule in as the devil has no
place of his own or any power save
now sells out his own soul to
him thus he uses the life and body
God created to fulfill his love, joy,
peace Grace Mercy kindness love-
ness by in and thus filling the
whole earth with the
God love joy peace Mercy Grace, ^{goodness} truth and

the things worth while to live or die
for. all the devil has to offer are the
things of him self. (He is a liar a thief comes
only to steal kill and devour all who get
in his way. lie Cheat and is perverted
God and Good. upset and opposed to
God and His principles and way.

God is Meek He is lowly. (they are valiant
they are high minded full of pride lifted up in
their senses as tho they are it and no one
else is anything or have any thing worth
any for all they have they deserve to be
cheated killed or took by valiantes that
which was not theirs a did they have
any say or right to do it. the true
battle is God and good versus Satan
& evil and Man is being used of God or
Satan and now is the time to say if
we want God and Good to survive and
be our Father or I want his theories and
etc to rule over us.

and to oppose and to stand fast resist
the devil and God send when you do
this and he can't find favor or aid
on your part to bring out his
evil way. he will flee from you
there is no place to flee. Truth brought
to light is all powerful it defeats
the fault on the spot or the one at
fault and only needs some one in your
midst to be man enough to declare
it or to confront the false for falsehood
is defeated as soon as it is found out
it has no power at all only as long as the
others or blind to it or the people are kept
in ignorance to the true facts of its origin
or say you have but to sound out the
truth to see the false crumble & fall. that
why the Communists keep control of the
entire communication system to see

to it the people - learn not the truth for
if they know the truth they Communist
Party finds them - Senses - done for
furnished - unwanted so they immediat-
ly see that they know only what they
want them to know or believe
and that being a lie a false hood
of their real intent of being there to destroy
their own way of life be kept secrets
till they get their own selves in control
which they always do from in side
and they are in our Country and in
your Country now are working like
a bunch of termites. Working a way
at your own Government principles
and foundation like a bunch of
termites that they are subverting minds
and hearts to the poor ignorant unlearned
people of your Country while they get
them selves employed as the Personnel

Department of your Communication
Controlling faculties your transport
your union which controls labor
Now power your water your
lights then they take over as
soon as they get their selves
hered out in these places they get
in to any place in the company then
a Communist who is always in the
Personel Dept to see that they are employed
in stead of a true citizen and as soon
as they are in they make it their business
to find favor to do a good job and to be
you to point out faults and failures then other
employees of their foreman or leader see it gets
out and circled around & reaches the
super up ears and they end up firing them
and with the Communist States this is a common
and with the Communist States this is a common

sooner than you think but old reliable
find them Series no longer needed
and thus they are in the fast lanes
in the Banks particular and are
now in Control of our American
Money going to one of them Series
Advantages a their Cause. then
you can ever think for but true
it is and now is the time to defeat
such evil such undermen
for they use a Nations own Money
and our people to overthrow their
own private own ~~own~~ Companies also
their own Government by all such under
handedness undermen that they
are going to do so much more for them
when they get in Charge or promoted so
they help them get promoted to controlling
jobs with out ever dreaming they are
a Communist or not one of them Series

So when the time comes they have then
our people in the Contraband say
of social Campaign as Transferring
unions labor Mon Power. Light
water etc in ones our Government
as in ones our private owned
Business and here in is the
evil done the net work laid and
we pay for it and them to do it
we also give our selves helping
to establish them in aware they
work thru us and others as we are
not one of them or never expected or
betray our loyalty tho often used of them
to get what they want done be cause
we are know we are trusted we are
not one of them and no one sense
my feeling toward as but loyal or true

So they work it so we actually say or
do the thing or bring it to light
to the place it is most effective
and they are not even connected
as having any part a place or
ring in the thing themselves
but true fact is they planted the seed
the suggestion in some most highly
standing persons mind somehow and they
do it. This is what the world is up
against Satan him self in human
form so its this thing that must
be put down in people themselves
by reaching them with this truth
& light making it impossible to
blind deceive people any longer
breaking their power and free
by so doing and thats all you can
or need to do let the devil know you

Hon. U. Thant, Secy. General
United Nations, -New York, N.Y.

Dear sir:

I am wondering why so little, in fact almost nothing has been said, and very little criticism against Prime Minister Castro of Cuba, about his taking over- stealing- hundreds of U.S. and other country industries, which have been the backbone and cause of Cuba's previous prosperity. Those properties and factories cost industries hundreds of millions of dollars, and a loss of millions of dollars ^{to} U.S. citizens & others. By rights we should go in Cuba and blast them out of there, and take back the industries they have stolen. About 2 years too late, but we should have met Khrushchev's Russia Communists when they first started coming into Cuba-- met them with battle ships and turned them back. I am sending copy of this to President Kennedy, trusting that you and he and others will in future stress the above facts,- especially that Castro has stolen hundreds of millions of U.S. & other industries and turned them over to the Communists. Also we paid Cuba a big bonus for sugar, which of course he doesn't appreciate,- neither does Khrushchev.

With best wishes,

Sincerely yours - J.L.Siler-

Mr. U. Thant

New York, N.Y.

Dear Mr. U. Thant,

Please allow me to thank you for your splendid handling of our recent Cuban crisis. Your excellent management and understanding has been an inspiration to us all.

The untiring efforts of you and your U. N. colleagues each day brings the world into nearer harmony. These efforts will eventually cause us all to realize that we can live peacefully in spite of our distinctions and to love our fellowmen through a greater understanding and respect for these diverse societies. Once this is achieved we shall be no longer working against one another, rather working for one another. How rich a reward!

On behalf of my family and all the families of the United States of America, please accept our gratitude.

Most sincerely,

Mrs. Walter Kastner

Mr. U-Thant,
Secretary General,
United Nations,
NEW YORK.
AMERICA.

Dear Mr. U-Thant,

At the last meeting of the Newcastle Trades Hall Council which represents many thousands of workers in the large industrial and rural area of Newcastle and the Hunter Valley districts in N.S.W. Australia the delegates discussed the American blockade of Cuba.

The following resolution was unanimously carried:

"Council branded the decision as a 'blatantly aggressive act', a direct threat to world peace. Referring to the U.S. world-wide system of military bases and launching sites, it called on the United Nations Organisation to protect Cuba and ships on the high seas from U.S. warlike interference, and also demanded Australian Government action to this effect."

Yours faithfully,

A. Dowling.

Mr. U. Thant,
Secretary General,
United Nations Organisation,
New York,
UNITED STATES OF AMERICA.

Dear Sir,

As a group of citizens vitally concerned with the preservation of peace, and in order to save the world's people from destruction in a thermo-nuclear war, we are appealing to you, as Secretary-General of the United Nations Organisation to work for the dismantling of all military bases on foreign soil.

The present situation where world war was threatened because America was concerned with the construction of missile bases in Cuba and close to America, could well be repeated in the future by other countries in a similar situation.

We look to the United Nations to remove such a threat to peace by ordering the dismantling of all such bases wherever they may be.

We believe that the United States of America, in the interest of world peace should have brought its complaint to U.N.O.

To bring the world dangerously close to a thermo-nuclear war by its belligerent actions, must be considered reprehensible.

The principles of right and wrong procedure must be clearly defined.

To condone the action taken by the United States on Cuba, must be to condone such behaviour on the part of other countries who feel they are in a similar position: as indeed some are.

There are sections of the American public who are outspoken in their disappointment because America failed to invade Cuba. They openly support armed aggression to overthrow the present Government in Cuba.

U.N.O. must make it perfectly clear to America that it will not be allowed to dictate to another country what form of Government or social system they must have.

The United Nations Organisation is charged with the grave responsibility of saving the world from war and its people from destruction.

We again ask you to exert all your efforts to this end by working for the dismantling of all military bases established in foreign countries.

Wishing you every success,

Yours faithfully,

D. Frame.

Dear and Honorable Sir:

As a very interested follower of the developments in the Cuban situation, and as one who gives wholehearted support to the "hard-line" policy of keeping the island, and other nations of this hemisphere, free from Communist domination, I deplore your stance in the Havana meetings whereby you did not insist on the prompt removal of the two dozen Ilyushin bombers from there.

It is understood that Castro defiantly maintains they will be kept there, despite the phony protest of the Russian delegate that they are obsolete. If they are, why does the puppet want them so badly? On the other hand, since the blockade was initially begun in order that the missiles, as well as the bombers, be removed, it is the business of the Acting Secretary of the U. N. to see that both these conditions are kept, and not overridden secretly and then hushed up.

The American public should not be duped by an organization which allegedly wishes to promote freedom.

Sincerely yours,

Karel Mareček
