24 October, 2007

Respected UN Secretary-General Ban Ki-moon,

It happens to be a commemoration day for the United Nations. I hereby write to you to extend my congratulation. When you were selected as the UN Secretary-General at the start of this year, I sent you a letter of congratulation. When I was inaugurated as President of Global Urban Development on 9 February of this year, you sent me a congratulatory letter as well. Facts prove that you are not only an excellent diplomat and an outstanding leader but also a special friend whom I feel honored with.

The current international situation is complicated and changeable. The issue of ecological safety is severely threatening human survival and sustainable development. Since you assumed office to be the UN Secretary-General, the UN has been bringing into full play of its special role in dealing with international affairs. In particular, the UN has taken a series of measures to protect ecological environment, making a great contribution to tackling global warming and ecological crisis. This year, I visited the Democratic Republic of Congo, the Republic of the Congo, Ethiopia and other African countries as well as some island countries in Southeast Asia in the name of Chairman of International Eco-Safety Cooperative Organization. The issues of poverty, epidemic diseases and water pollution in these areas are considerably severe. Darfur crisis in Sudan triggered by ecological problems is by far worrisome. Protecting ecological environment is an important condition for jointly creating a sustainable future. Climate change has drawn

global attention lately, which deeply reflects the close connection between development and environment. Climate change is an issue of environment, but in the final analysis, it is an issue of development; to cope with this issue, we should take sustainable development as a prerequisite, uphold United Nations Framework Convention on Climate Change and Kyoto Protocol as the key mechanism and the main channels, adhere to the principle of common but distinct responsibilities and launch extensive international cooperation. We should keep on improving technology, strive for a sustainable pattern of production and mode of consumption, push forward “green” growth and develop circular economy so as to jointly protect our homeland and global environment.

In view of this, the International Eco-Safety Cooperative Organization (IESCO) recently initiated the “Joint Declaration on International Ecological Safety”, to which more than 100 countries have acceded. The themes of the Declaration are: 1) to put the concept of ecological safety in public eyes and to strengthen the public awareness of ecological safety and environmental protection; 2) to implement the sustainable development and the international eco-safety management system; 3) to prepare for the 1st Conference on International Ecological Safety, which is to be held in China in October, 2008. We would tentatively invite over 100 countries to send their delegations to attend the conference. Till now, 37 countries have signed the Declaration. Besides, the IESCO is taking up another work, to promote rural ecology-building in various countries. The rural population occupies 3/4 of the world total population, hence rural ecology-building and sustainability is of immediate importance to global development and stability.

Respected Secretary-General Ban Ki-moon, the IESCO is willing to partake in the UN’s cause of poverty alleviation, to support African countries on materializing the Millennium Development Goals and to control global warming. We are ready to render technology and funds for the

purpose of jointly coping with ecological disasters.

We lately published a book Confucius Analects in English-Chinese version and a 30-volume large-sized special documentary Confucius, a Cultural Giant. Confucius thought has been accepted by more and more men of insight in the world. The Nobel winners of 1988 indicated in the Paris Declaration issued in Paris of France that mankind must absorb wisdom from Confucius of 2,540 years ago for the sake of surviving in the 21 century. Confucius thought will play an active guiding role in promoting world peace, developing a harmonious society, protecting environment and building our common homeland.

At the end, I would appreciate Your Excellency Secretary-General once again for the support given to our Organization. In addition, would you mind finding a time from your tight schedule to write an article concerning maintenance of ecological safety, protection of ecological environment and control of global warming for our magazine International Ecology and Safety?

The original version of this letter is to be delivered by post. Attached with the letter is an edition of Confucius Analects, a series of discs of Confucius, a Cultural Giant and a piece of tie.

May you keep good health and all your heart's wishes be fulfilled.

Yours respectfully,

Jiang Mingjun

Chairman of International Eco-Safety Cooperative Organization

尊敬的潘基文秘書長：

適逢聯合國紀念日，我謹向您發去信函以示祝賀。年初在您當選聯合國秘書長時，我曾給您發去賀信。今年2月9日，在我出任“全球城市發展組織”主席時，您也給我發來賀信。實踐證明，您不僅是一位優秀的外交家和杰出領導人，而且也是我引以為榮的摯友。

當前國際形勢復雜多變，生態安全嚴重威脅人類的生存和可持續發展，您就任聯合國秘書長以來，充分發揮了聯合國在處理國際事務中的獨特作用，特別在保護生態環境方面出臺了一系列的措施，在解決全球氣候變暖和處理生態危機方面做出了重要貢獻，今年我作為國際生態安全合作組織主席，訪問了剛果（金）、剛果（布）和埃塞俄比亞等非洲國家，還訪問了東南亞一些島國。那裏的貧困、流行性疾病和水污染等諸多問題，形勢仍相當嚴峻。由於生態危機引發的蘇丹（富爾達爾）問題的爭端，更是令人憂慮。保護生態環境，是共創可持續性未來的重要條件。近來，氣候變化引起全球關注。這是發展和環境密切關聯的深刻反映。氣候變化是環境問題，但歸要結底還是發展問題，應該在可持續發展的前提下，堅持《聯合國氣候變化框架公約》及其《京都議定書》的核心機制和主渠道地位，遵循共同但有區別的責任的原則，通過廣泛開展國際合作，積極加以應對。應該不斷提高技術水平，努力建立適應可持續發展要求的生產方式和消費方式，推動綠色增長，發展循環經濟，共同保護我們的家園，保護全球生態環境。

鑒于此，國際生態安全合作組織于近期發起了，并有一百多個國家參加的國際生態安全聯合宣言。該宣言的中心思想是：一、宣傳生態安全理念，提高民衆的生態安全與環保意識；二、實施可持續發展和國際生態安全管理體系；三、籌備2008年十月份在中國召開的首屆國際生態安全大會。此次大會擬邀請一百多個國家政府代表團參加會議。

目前，此項籌備工作已經與三十七個國家簽約。國際生態安全合作組織正在做的另一項工作是：積極推進各國農村的生態建設。因為農村人口占全球總人口的四分之三，因此，農村的生態建設和可持續發展將直接关系到全球的發展與穩定。

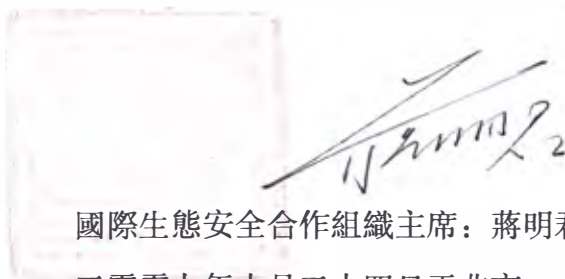

尊敬的潘基文秘書長，國際生態安全合作組織希望參與聯合國扶貧工作，特別是支持非洲國家盡快實現千年發展目標，抑制全球氣候變暖，共同應對生態災難，我們將從技術和資金上予以支持。

最近，我們還組織出版了中英文版本的孔子《論語》，及題為“文化巨人孔子”的三十集大型文獻專題片。孔子思想的價值已贏得越來越多世界各國有識之士的認同。1988年諾貝爾獎得主們在法國巴黎發表的《巴黎宣言》中指出：“人類要在21世紀生存下去，必須從2540年孔子那裏吸取智慧。”孔子的思想對促進世界和平、建設和諧社會、保護生態環境和建設人類共同家園將起到積極的指導作用。

最后，對秘書長閣下長期以來給予本組織的支持再次表示感謝，另外，我們請求秘書長可否在百忙中為我們的《國際生態與安全》雜誌撰寫一篇有關維護生態安全，保護生態環境，抑制全球氣候變暖的文章。

此信的原文將通過國際郵局投遞，隨信寄去的還有《論語》一書、“文化巨人孔子”光碟一套及一條領帶。

祝身體健康，萬事如意。

國際生態安全合作組織主席：蔣明君
