1. Reference your MIR-2365 transmitting Mr. Ajello's first draft report on his mission in pursuance of SecCo resolution 997.

2. In light of para. 12 of Mr. Ajello's report, we need to take urgent steps to prepare a preliminary concept of operation and a "concrete, workable and effective plan of action" for the proposed deployment of MILOBS to neighbouring countries. The plan should propose measures for the deployment of MILOBS wherever you think they may be feasible to deter the sale or supply of arms, including airfields and military camps. We should therefore be most grateful if UNAMIR could prepare such a plan, taking into account Mr. Ajello's consultations in Uganda and Tanzania. Since the report to the SecCo should be circulated by 9 July, we would very much appreciate receiving your input by Friday morning on the assumption that Mr. Ajello will have completed his consultations by then and bearing in mind that the proposed plan will be reviewed here in New York for decision whether it would be included in the draft report of the Secretary-General in the SecCo.

Best regards,
