Distinguished Excellence  
The UN Secretary General  
Mr Ban Ki - Moon  
The Headquarters Plaza  
New York, N Y 10017

Distinguished Excellence  
and The UN Secretary General,

✓ **Concern : Terrorism Issue**

While you are getting busy by the world's events, please Excellence, accept my apology for addressing to your authority the "terrorism" issue by which the Humanity is loosing innocent people

Due to the character of the subject, I have addressed the same passion to their Excellence the President of the United States, the France President and the UK Prime minister.

As a Peace and Democracy defender, it is with much pain I am making a kind of ultimate proposition so that we, all of us on the planet, can STOP this terror phenomenon. We have to change our behavior unfortunately.

Please Excellence, first, I have to mention that the fight of terror should NOT be the only business of the countries' authorities. It must be perceived as everyone's business. We all people of the planet have to be part of the fight of terrorism; so a strong message need to be addressed to the people of the world to defeat this evil phenomenon.

" People cannot be afraid when driving in the car, neither be afraid when working at  
" the workplace or studying at school. People cannot wonder about their safety when  
" shopping. How about traveling by bus, train or airplan ?

P04/03/006

The life, in this case, would make any sense. We cannot be at the mercy of evil. We, all people of the planet, need to do all it takes to stop it. Going straight to my proposition is as follows :

" I would like the all world to be mobilized about fighting terrorism. The all world will take this  
" responsibility and create a "universal funds" to be constituted by the citizens of the planet  
" to fight terror. I can remember the call made by the former US President George W. Bush  
" to every American about donating 1\$ to help the people of Irak. It was my pleasure to  
" donate 25\$. In our case, every country can call their people to donate a us dollar to pursue  
" with energy the global fight of terror. A financial mechanism would be set up in every country  
" try to wire the funds into a special account in the UN to be managed by a group of experts.  
" The funds' purpose would be to promote research in order to discover and destroy terrorism.  
" rism. Another point of the strategy is to call every citizen of the planet, wherever they are,  
" to report to officials any suspicious movement, action or behavior that can lead to terrorism  
" On the other side, world's Leaders would perform contacts of conciliating views in terms of  
" **loving neighbor** vis-à-vis both Islamic countries and religious' Leaders.

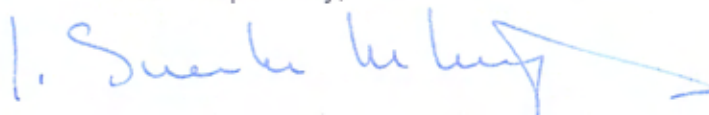

Tactically speaking, such an approach might have a huge psychological merit to decrease or discourage the pursuit of terrorism because the all world is sensitized. There is a "wake-up" call all over the planet. Because terrorists are around us, then they will live with fear that their neighbors are watching them. It is more about creating another psychology that negatively impacts terrorism.

Excellent, in addition to what the world's Leaders are performing to fight terror, this is a little reflection from a citizen of the planet who cares about "life". If it can help in one way or another or be improved it would be my pleasure to contribute.

Despite your incredible occupations, I want to thank you for your attention.

God bless

Most respectfully,

---

a 63-year-old former Congo central bank adviser (now retired) and a former UN Congo delegate at ECOSOC (1992), Leon is a father of 7 and a grandfather of 5, and is married to Henriette Mayitukwa for 40 years. He is a 2005 Member of the "American Technology Honor Society" because of Outstanding Character and Achievement. 32 years ago, Leon has obtained a Bachelor's and a Master's Degrees in Economics from Belgium. Actually, he is leading since 2001 a Group of Pressure "GIPDC"-Initiator Group for Peace and Democratization in Congo-Kinshasa established in Norman, Oklahoma State, USA. Leon and wife live temporarily in France for wife's medical convenience.
