Ban Ki-moon, Secretary General
The United Nations
First Avenue & 46th Street
New York, NY 10017

✓ Regarding: **Interviewing you for our feature film *Global Enlightenment: a Plan for World Peace*.**

Dear Secretary General Ki-moon:

We are traveling the world to interview world leaders with the intension of developing a practical plan to create world peace. As a global peace leader we would appreciate the opportunity to hear your thoughts on the matter and record them.

The **interview is for a feature film called *Global Enlightenment: a Plan for World Peace*, and for a television series also called *Global Enlightenment*.** Acclaimed documentary director Gabreal Franklin is overseeing the production, and I am the host.

Would you be able to provide us an hour of your time? We would come to you and see you at your convenience. The profits from the movie go to worthy charities, and as a participating leader we would allocate a portion of the profits of the movie to a charity of your choosing, such as **The United Nations**.

✓ So we can help support the work you are doing. **Attached is the Executive Summary should you wish to learn more about movie. You or your office my contact me directly at the email or phone below.**

We appreciate your service to mankind, and for considering our proposal.

Respectfully and affectionately,

Steven S. Sadleir
