London, 16, October 1944.

Confidential.

The Chairman of the Committee I.
United Nations War Crimes Commission
Royal Courts of Justice.

Sir,

I should like to inform you that this Office have decided to set up in Scotland an Agency entrusted with collecting information and evidence on war crimes in Poland which can be supplied there by Polish citizens who had been compulsorily enlisted into the German Army. There are already many thousands of Poles of that category in Scotland brought to this country from France and Italy as prisoners of war and now serving in the Polish Forces.

The preliminary arrangements with the Polish Military Authorities being nearly accomplished, we expect to be able to start this business in the very nearest future.

I shall inform you in an appropriate time how far our collecting evidence from that source has been successful.

Simultaneously this Office is also making arrangements necessary to collect information and evidence on war crimes committed by the Germans against Poles in occupied France and Belgium.

Yours sincerely

J. Litawski

Dear Dr. Litawski,

With reference to your cases, 30 and 32, can you inform me if the accused SELL is the same person in both cases?

There is also a Frau ZIMMER who is No. 8 in case 32. Is she the same as the accused No. 86 in case 30?

Yours sincerely,

Dear Dr. Litawski,

Thank you so much for your letter of 8th November replying to my questions about SELL and Frau ZIMMER.

I am constantly being asked for the total number of criminals on the list, and while there must always be a margin of error owing to confusion of identities it is helpful to know when the same person need not be counted twice.

Yours sincerely,

Y.

London. 25th November, 44.

The Secretary General

Royal Courts of Justice.

Dear Sir,

With reference to the proposed list of war criminals concerning Poland it appears that the names of some places have been put in the German denomination only. It is of course a fault of this Office. In the enclosed draft of the List there are indicated the appropriate corrections which I suggest to be inserted in the final List.

It appears also that in many instances there is no reference as to the localities where the accused have been performing their official duties.

The corrections concerning the names of the accused I suggested already while inspecting the lists on Tuesday last.

Yours Sincerely

Dear Lord Wright,

I feel it my duty to apologise for my absence at our National Office during your kind visit on Thursday last.

Unfortunately enough I have been summoned for the same time by the President of the Republic to report on a bill I drafted the previous day (the circumstance that prevented me from attending the meeting of the Commission on Wednesday last.).

As, of course, I could not postpone my appointment with the President, I was deprived of the pleasure to act as the host together with Dr. Litawski, although it was my duty.

I hope you will excuse it and remain,

Dear

Dr. Lilawski,

Polish National Office for War Crimes.

I write to you as former representative of the Polish National Office, and I shall be glad if you will let me know what the present position is.

You will recall that some time ago I spoke to you regarding the office and you advised me how to proceed in communicating therewith.

I have made a number of communications to the office during recent weeks without so far as I am aware receiving any acknowledgment.

/ I now enclose copy of a letter written today, which is a sample of communications previously made.

Considerable embarrassment is caused to our military authorities if we do not receive properly substantiated requests for disposal of suspects who have been arrested. I shall be much obliged if you can do anything to secure a reply to the enclosed letter and previous communications.

The last communication we received from the Polish National Office was signed by Dr. K. Epler. It was

...

dated 7th September 1945. Since then four letters have been sent to your National Office without any acknowledgment having been received. In two cases it was requested that the wishes of your National Office be communicated as soon as possible in relation to the persons held in custody.

Dear Mr. Kent,

I thank you for your letter of the 26th November, which I received on Saturday last, and I am very sorry to read that you have encountered some difficulty in pursuing your affairs with the Polish National Office.

Since September last, the Polish National Office has been in a process of liquidation, transferring all material and files gradually to Mr. Szerer, the new Polish Government's representative to this Commission.

As soon as I received your letter on Saturday, I ascertained that all your letters sent in the last few months to the Polish National Office have been transmitted, though indirectly, to the new Polish Delegation on this Commission for further action. Therefore, it seemed to me that the best way for you, would be to get into touch with Dr. Lachs, who, at the moment, is in charge of Polish Delegations Office which have taken over the material and files from the Polish National Office in liquidation.

I transmitted also to Dr. Lachs a copy of your letter concerning Dr. Alfred Hasselberg of 26th November 1945, together with your letter addressed to me.

The address of Dr. Lachs' office is the same as of this Commission, but room No. 348, telephone extension 230.

Dear Colonel Ledingham,

At its meeting on the 31st October, 1946, Committee I. listed Richard Wedemeyer /No. 4189/, Marta Puretz and Stefania Brandstaetter /No. 4188/ as war criminals. I would appreciate it very much if you would let me have a note in acknowledgment of this.

Proceedings for the extradition of these three persons /the first of whom is now living in Denmark and the two others in France/ have been instituted by the Polish Ministry for Foreign Affairs, and the fact of their being listed as war criminals will assist these proceedings.

Please let me have separate acknowledgments for each of the persons mentioned above, as the letters will have to go into different files.

Yours sincerely

Dear Dr. Szorer,

With reference to your letter dated 27th November 1946, and addressed to Monsieur de Baer in his capacity as Chairman of Committee I, I have to inform you that your enquiry as to the possibility of listing generally all the commanding personnel and guards of the concentration camps at Oświęcim and Stutthof has been considered by Committee I at its Meeting held on December 4th.

I am instructed by the Committee to state that the case referred to in last 50 has been accepted and the unknown personnel of the Institute of Anatomy listed on the grounds that the crimes committed were exceptionally atrocious, while the personnel on the staff of the Institute was comparatively very small in number and have been indicated in the relevant charge by ranks and functions. This was the only instance in which the Committee has listed such unknown personnel as a unit.

The Committee was of the opinion that the listing of an unknown unit in such a case gives no justification for establishing a general rule and decided that it could not, therefore, comply with your request.

Yours sincerely,

Dear Colonel Ledingham,

Polish Charges Nos. 4187/P/G/88,
4884/P/G/161
4889/P/G/166

I should like to ask you to send me a certificate stating that the accused in the above cases have been listed by the UNWCC.

This certificate is required by our investigation teams in Germany, to facilitate the search for the accused, with the help of the allied occupation authorities. I cannot give the serial number of the relevant UNWCC list as the charges in question are quite recent and the list containing the names is not yet published.

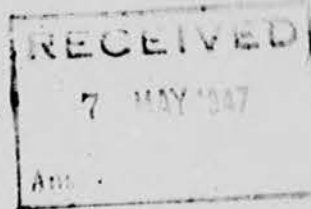

Thanking you in anticipation of your help in this matter,

Very sincerely yours

Dear Colonel Muszkat,

I should like to draw your attention to the fact that in most of the Polish cases received by the Secretariat yesterday the descriptions of crimes provided on page 1 are factual rather than legal.

This procedure causes, unfortunately, some difficulties because the Secretariat is thus called upon to make the necessary changes before submitting the cases to the Committee for consideration, and it also places an unnecessary burden on our indexing section. Moreover, such changes, if they are done without consultation with the National Office, might not comply with the evidence and records on which charges are based.

I would, therefore, very much appreciate if you could kindly request your National Office to ensure that in future cases all descriptions of alleged crimes were brought into line with the Commission's working list of war crimes, (the 1919 Responsibilities Commission's List).

Thanking you in advance,

I am,

Yours sincerely,

THE EXTRACTS FROM THE CASE OF GREISER
BEFORE THE SUPREME NATIONAL
TRIBUNAL

3. The Penal Law Against the Poles

The Council of Ministers for the Defence of the Reich, considering the adoption of penal sanctions as envisaged in the decree of 6th June, 1940, and as introduced in the "annexed territories" inadequate, issued on 4th December, 1941, a new decree concerning penal law against both Poles and Jews for the "Eastern Annexed Territories". The essential part of this law envisaged the death penalty /and, only in minor offences, loss of freedom/ for Poles and/or Jews who showed a hostile attitude towards Germany through instigation to hatred and in particular through either usage of unfavourable expressions relating to Germany, or tearing down proclamations of German authorities, or through any other action which might harm the respect of the German Reich and German nation. Loss of freedom was enforced through confinement in either an ordinary penal camp for ten years or a special camp for 15 years. Rigid discipline and long hours of unpaid work /one or two hours longer than in hard labour/ were introduced in those camps. One Sunday of each month was an "austerity" with a hard bed and no food.

In respect of the criminal procedure the following principles were adopted. The courts as well as the prosecutors were at liberty to create the procedure, at their discretion, on the lines of the German legal procedure. The decree deprived the Poles of the right to representation at a trial and prohibited the submission of either an appeal or a personal charge.

The Executions

In the whole area ruled by Greiser executions without trial were constantly carried out among the local population. There is hardly a place which does not bear evidence of such executions or is free from the graves of murdered persons. Those facts were proved beyond doubt by an inquiry conducted by the Main Commission for Investigation of German Crimes in Poland.

The Main personal responsibility for issuing orders to this effect rested with Greiser.

Greiser's letter, reference No 2062/41, dated 22nd July, 1941, marked "Secret-Matter of the Reich" which laid down the formal basis of his personal legal competence in this respect provided legal sanctions for the actual position already existing. In this letter, addressed to all his subordinate high-ranking officials, Greiser stated the following: -

1. Hitler has ordered that in respect of the administration of justice Greiser be given special authority to whatever extent may be specified by Greiser himself.
2. In compliance with this order, the Minister of the Reich, Dr. Lamers, issued an instruction to all his subordinate departments to the effect that, in accordance with Greiser's wish, the latter was given the right to set up military courts.
3. In view of the above, in case of an offence or a crime committed against the German reconstruction effort in the Warthegau area, Greiser was to decide whether the case to be tried by a military court. He, therefore, ordered that, in case of sabotage on political grounds, a report should be submitted directly to him for decision as to the procedure to be adopted.
4. The military courts thus set up were at liberty to pass either a death sentence or a sentence of deportation to a concentration camp, whereupon Greiser, through a direct oral or a telephonic "procedure of appeal" would be free to exercise his right and either commute the death sentence into a deportation

- 2 -

- sentence or vice versa.
5. From that date onwards Poles sentenced by military courts for political offences committed in Greiser's area, were subject to the law as administered by him.
 6. If for any political reason, Greiser should consider the execution of death sentence by hanging passed by an ordinary or military court necessary, he would issue the relevant instructions.

4. Statements of "The Institute of National Remembrance" attached to the Council of Ministers, submitted in writing on 24th October, 1947, No IPN IL/4/27/47.

In accordance with the above-listed documents the Commission states the following: -

1. The German police military courts /Standgericht/ were introduced by Frank's order, dated 13th October, 1939 /Verordnung zur Bekaempfung von Gewalttaten im Generalgouvernement - Verordnungsblatt des Generalgouverneurs fuer die besetzten Polnischen Gebiete - 1939 - No 2 - Page 10/.
2. The German police military courts operated in the area of the G.G. In accordance with the criminal law which applied to both Jews and Poles in the annexed territories, the Governor /Super-President/ could if he so chose, introduce military courts also in the area administered by him.
3. The German police military courts did not observe the usual legal procedure and thus: -
 - a/ Indictment was not served on the accused, nor was he otherwise notified of the charge
 - b/ Counsel for the defence was not allowed at the "trial", nor was the accused permitted to defend himself in accordance with the normal procedure adopted at trials
 - c/ There were cases when "sentences" were passed without any preliminary investigation, that is to say, without submitting documentary proofs of guilt or examination of witnesses, or submission or reading during the trial of any records relating thereto.
4. The only regulation adhered to by the German military courts was the following: "The names of judges, of the accused and of the witnesses upon whose evidence the sentence has been passed as well as the definition of the crime committed and date of sentence passed and executed should be taken down in writing".

Taking the above facts into consideration the Commission states the following: - Being deprived of legal character because of the procedure adopted, the German police courts which operated in the territory of Poland during 1939 - 1945, are considered illegal in the light of the law.

Dear Sir Robert,

I should like to refer to the question of the character of the hitlerite Standgerichte (military courts) which were established in occupied Poland. This point was raised during the examination by Committee I of several Polish charges concerning judges and prosecutors active in these courts.

As you requested, I am enclosing a copy of a declaration on the subject, made by the Main Commission for Investigation of German War Crimes in Poland, dated 6th October 1947. I am sending you also some extracts from the proceedings in the case of the governor Greiser before the Supreme National Tribunal for War Crimes, showing the methods of German administration of justice in Poland.

I do not think it necessary to quote affidavits, statements and exhibits already presented in the Nuremberg Case No. III, concerning the hitlerite lawyers and giving a full picture of hitlerite law and justice.

Yours very sincerely,

Dear Sir Robert,

I should like to inform you that the under-mentioned
suspected persons will be re-extradited from Poland to
Germany, as their responsibility for the commission of war
crimes in Poland has not been proved, and they were
surrendered to my Government by mistake.

No further judicial action should be taken by our
authorities against them, as their cases were dismissed
and definitely closed; consequently, their names may be
removed from the UNWCC lists, should no other government
be interested in their prosecution.

SUBJECT: Dr. Muszkat's letter Reference 3261/48

The following names, mentioned in the a/m letter are not on UNWCC Lists:

Georg GEHRING
Adam HOCHE
Eric DOBERTHIN
Paul WICHERN
Ernest L. DINGELDEIN

There is no Dr. Max FISCHER, listed by POLAND
" " a Dr. FISCHER " " (7058/P/G/1279),
List 65:180, but identification is impossible for lack of further
information.

There is no Otto HELMUTH, listed by POLAND
but

there is Dr. Otto HELLMUTH only listed by UNWCC (List 7), regarding
whom I have the following information "Reuter reported from
Frankfurt 10.10.47, that the American Military Court at Dachau
had sentenced to death by hanging Otto HELLMUTH, the former
Nazi Gauleiter of the district of Mainfranken, together with seven
others who stood trial with him"
It would not appear that the two HELMUTHS are one and the same
person.

Dear Colonel Muszkat,

With reference to your letter of 6th January, 1948, addressed to Sir Robert Craigie, concerning seven persons whose names your Government wishes to remove from the U.N.W.C.C. Lists as wanted by Poland, I have to draw your attention to the following.

The Commission's Secretariat has no record of having listed five of the persons whom you mention: Georg Gehring, Adam Hocke, Erich Doberthin, Paul Wichern and Ernest L. Dingeldein.

With regard to Otto Hellmuth, the Secretariat has no record of an individual of that name having been listed by Poland. A certain Dr. Otto Hellmuth, former Nazi Gauleiter of the district of Mainfranken, has been listed in List 7 only, concerning whom it was reported on 10th October, 1947, that he had been sentenced to death by the American Military Court at Dachau. It would not appear, however, that the two persons are identical.

There is a certain Dr. Fischer, without Christian name, charged by Poland in Charge No. 7058, and listed by the Commission in List No. 65:130, but without further information it is not possible to identify this accused as the Dr. Max Fischer to whom you refer. Perhaps you would kindly inform me whether the individual in Charge 7058 is the one whose name is to be removed from the Commission's List.

Yours sincerely,

J. LITAWSKI

Dear Dr Litawski,

Referring to your comments on the Polish cases, mentioned in Doc. No. 128, preparatory to the meeting of Committee I, I should like to point out the following:

1. Case 1365/7304: According to the evidence, the accused Kosman committed war crimes with the tacit approval of the German occupying authorities, with whom he retreated together with his gang, after the German defeat. Murder of the civilian population by alleged criminals, sponsored by the occupying power, seems to me to be a war crime in accordance with the working list of the Commission.
2. Case 1354/7293: This National Office has no material to substantiate the charges against the accused 3 - 5 for their individual crimes regarding the deliberate starvation of civilians. But as they held official positions as chief assistants to the head of the Department of Food and Agriculture in Occupied Poland, being responsible as directors of the agricultural departments in Lublin, Warsaw and Cracow, there seems no doubt that they should be listed, if not as "A", then as "S" or at least "W".
3. Case 1345/7262: The accused was a police official acting at Wisniowczyk during the German occupation. In this capacity he organized the Nazi actions against the civilian population and their deportation to extermination camps. He personally ill-treated civilians, this resulting very often in death. These crimes are in accordance with the provisions of the Commission's working list.
4. Case 1352/7261: As there is some doubt regarding the accused 2 and 4, I think they should be listed as "W".
