REPORTS

23. Military Police reports are confidential documents and Headquarters Staffs, Contingent Commanders and Commanding Officers will take necessary precautions to ensure that reports are not compromised. The Military Police report is not a substitute for investigations which the Commanding Officer may have to make pursuant to ONUC regulations and orders, or the military regulations of his own country. Commanding Officers should, therefore, not make it available to their investigating officer or boards of inquiry until they have recorded their own evidence.

24. The following reports will be prepared, as appropriate by the Military Police:

REPORTING OF INCIDENTS

25. Incidents requiring the attention of the ONUC Military Police will be reported without delay. The timely intervention, report or warning of the Military Police may prevent more serious events to follow. It is therefore emphasized that all concerned must realize the importance of prompt and accurate reporting of incidents to the ONUC Military Police.

26. Included among the Military Police are qualified criminal investigators who can provide valuable assistance to Commanding Officers by securing, recording and interpreting evidence. This assistance is most effective in the initial stages of an investigation and before the physical and other evidence is obliterated. Commanding Officers must therefore;

Subject:- OFFICERS DUTY ROSTER : MIL OPS ROOM

1 Instances have again increased wherein officers who are absent from HQ for some reason or the other fail to intimate the duration of their absence thereby causing hardship for others who have to be detailed on duty instead, at short notice.

2 Officers are once again reminded to inform this Branch as soon as they come to know of their intended absence. They should do so whether or not they are already detailed on duty, particularly so when they are so detailed. Further lapses on the part of officers will be brought to the notice of Chief of Staff and respective Contingent Commanders.
