Patient-days during month

A patient-day is that period of service rendered a patient between the census-taking hours of two successive days, the day of discharge being counted as a day of care only if the patient had been both admitted and discharged the same day. The American Hospital Association's instruction is as follows:

Formula for calculation for each calendar day: Midnight census plus number of admissions and births during the succeeding 24 hours, including <sup>in</sup> admissions the number of patients who were both admitted and discharged (or died) the same day. For patients both admitted and discharged between one daily census and another, a day of care is counted if the patient is admitted, occupies a hospital bed and has a hospital chart originated. Exclude stillbirths from all counts of patient-days.

<sup>2</sup>  
Clinic visits

An out-patient for whom a clinic visit should be counted is an individual registered for and receiving service in the clinic or dispensary who does not occupy a regular bed or bassinet in the hospital.

This report does not require a count of different individuals served although the clinic administrator may wish to keep such a record for his own use.

A clinic visit is the occasion of treatment, diagnosis, immunisation or any other personal professional service to an out-patient in any sub-division of the clinic.

If the clinic, dispensary or out-patient department is organised in several departments or "clinics", such as a heart clinic or a maternity clinic, each of which keeps a record of patient visits, the clinic administrator may wish to keep a record for his own use of visits to the several departments. A report in such detail is not required on this form. The total number of clinic visits to be reported, therefore, may be either the sum of patient visits to several separate departments, or an unduplicated count of visits to the clinic as a whole if records are kept for such a count.

U.N.R.R.A.  
AREA I. HEADQUARTERS  
SUPPLY SECTION

TO : All Teams Area I., Land Salzburg  
FROM : Land Salzburg Supply Officer  
SUBJECT : Accounting for Camp Supplies  
REF.: S21

The purpose of this circular is to lay down clearly a uniform procedure for the accounting of all Camp Supplies, including food drawn from the Land and medical supplies, in all UNRRA operated camps.

The accounting procedure might be split into eight parts, which are :

- 1: Indenting of materials from AREA HQ
- 2: Receipt of materials drawn from AREA HQ
- 3: Issue of materials
- 4: Bookkeeping of receipts and issues
- 5: Food from Land and Medical Supplies
- 6: Local purchases
- 7: Discrepancies
8. Monthly returns

1. Indenting of materials from AREA HQ. - For commodities required from Area HQ or higher levels an "INDENT FORM" (Form A-100-C) will be completed in 4 copies. All columns will be duly filled and the indent will be provided with a serial number. It is advisable to keep a register for all outgoing indents showing when and in which proportions they have been filled.

The copies 1, 2, 3 will be forwarded to the Area HQ. The 4th copy will be kept in the files. It is essential to make out separate indents for each item required. This enlarges the paperwork, but has the advantage, that indents which can be filled immediately are not delayed by items not on hand, only supplyable at a later date or not available at all.

2. Receipt of material drawn from AREA HQ. - The commodities issued to the camps will be accompanied by No. 1, 2 and a blank copy of the "ISSUE VOUCHER" (Form A 111) and copy No. 2 of the Indent Form. On copy No. 1 of the Issue Voucher the receipt of the goods will be acknowledged by the signature of the recipient and will be left, along with the blank copy in the Warehouse. Copy No. 2 of the Issue Voucher and Copy No. 2 of the Indent Form, remain with the Camp for bookkeeping and filing purposes respectively.

3. Issue of supplies within the Camp. - For all issues made during the day within the camp, a "DAILY STOCK ISSUE SHEET" (Form A 113) will be completed. The name and Index Number of the recipient and the name of the commodity issued will be written in block letters in the appropriate space. Each recipient will sign for the commodities received in the last column of the sheet. If the commodities are being issued to a group of persons, workshops or kitchen, only one person, the one responsible for the group, kitchen or workshop will sign for the commodities received.

On the bottom of the Daily Stock Issue Sheet all figures will be consolidated, thus showing the total issues

during the day. The sheet will be provided with a serial number and will be signed by the officer responsible for the issues.

The same procedure will be followed in case of the food from the Land and Medical Supplies except for some differences, dealt with in par. 5 of present circular.

4. Bookkeeping of receipts and issues. - All receipts and issues will be entered into the Stockbook, consisting of "STOCK SHEETS" (Form A 115). For each commodity a separate Stocksheet will be made up. The Stocksheets will be grouped and filed in the order of sequence shown in the "STANDARD NOMENCLATURE LIST". This is important as it makes the preparation of the Monthly Returns (see par. 8) easier and also helps higher levels, to deal in a simple way with them.

The entries for receipts will be made (if drawn from or through UNRRA AREA HQ or higher levels) on the basis of Copy No. 2 of the Issue Voucher (remaining with camp; see par. 2.) and the serial number of same will be entered into the column "Voucher No". Thus the entry is supported by an ample proof.

The entries for issues are based on the consolidated figures of the Daily Stock Issue Sheets. These figures will be ~~xxxxxx~~ entered into the "ISSUE" column of the Stock Sheet. In the case of issues, the column "Voucher No", shows the serial number of the respective Daily Stock Issue Sheet. Thus this entry too, is supported by an ample proof.

5. Food from Land and Medical Supplies. - In most of the camps the accounting for above commodities has been made separately, by the kitchen or by the dispensary. This method will be changed in a certain way. The kitchen and the dispensary will remain responsible for the goods also in the future, but they will have to be lead through the Stockbook.

The entries for receipts will be made in the way described in par. 4. with the difference, that they will be supported by the "Delivery Slips" of the office issuing the food, and the "TALLY out" sheets of the unit issuing the Medical Supplies, instead of the Issue Voucher.

The food will be issued in bulk to the kitchen, and the Medical Supplies in bulk to the dispensary, immediately upon receipt. As for the making out of the respective Daily Stock Issue Sheet see par. 3. As a result of this procedure, there will never be a balance on the Stock Sheets for Austrian food and the Medical Supplies, nevertheless, for those requiring it, and for camp statistics, it will afford a measure of the consumption of both types of commodities.

6. Local purchases. - In case of materials being procured from local sources a "LOCAL PURCHASE ORDER" (Form A 117) will be completed in six copies. Copies No. 1 and 6 go to the vendor, who returns Copy No. 1 with his invoice made out in duplicate and keeps Copy No. 6 for his files. On receipt of the goods purchased, copies No. 1 to 5 (on copy No. 1 the amount due and the statement of the vendor, that the goods have not yet been paid for, will be recorded) will be forwarded to Area HQ for further action, along with one copy of the invoice. The other copy of the invoice serves as support for the entry, to be made into the Stockbook, receipt column. In this case the column "Voucher No" will show the number of the invoice and the "Remarks" column the name and location of the vendor.

This procedure, save the bookkeeping part, will be followed also in case of services rendered by local firms electrician, plumber etc.

The receipt of the merchandise or the completion of the service rendered will be certified on the invoice and signed by the Director or the Supply Officer.

IT IS A DEFINITE INSTRUCTION FROM C.H.Q.VIENNA THROUGH THE CHIEF SUPPLY OFFICER, GROEDIG, THAT NO PURCHASE MAY BE MADE UNLESS THE PURCHASE ORDER BE CLEARLY MARKED "NOT INVOLVING UNRRA FUNDS"

7. Discrepancies.- Whatever the reason for the difference between the physical stock and the stock on the books, a "DISCREPANCY REPORT" (Form A 140) in five copies must be completed. Four copies will be sent to this HQ, the 5th (blank) serves to support the entry made into the "Issue" column of the Stock Sheet. In case of excesses this report will be used as an "EXCESS REPORT" and dealt with accordingly. Note, that only the space "B" will be filled and signed by the Supply Officer and Director. On the back of the report will be given the detailed list of the missing, unserviceable or goods in excess.
8. Monthly returns.- The inventory, issues and receipts of the month, will be consolidated into one "MONTHLY RETURN REPORT" (Form A 200). On this report the commodities will be entered in the grouping and the sequence of the Standard Nomenclature List. The report will also include the issues and receipts for Austrian food and Medical Supplies, though no starting and closing inventory will be entered (see par. 5) The report will be turned in to this HQ in two copies, latest the 5th of each month, duly ~~signed~~ signed by the Officer in charge of Supplies.
